“ 10 years since my mother has transitioned and the void is still there. I'm ok with knowing that it will never be filled but I do miss her conversations, laughs, comfort and beautiful smile. May she continue to rest peacefully.

JO

“ I met Karen while we were both waiting for radiation treatments, she an inpatient, I was an outpatient. This was back in late March or early April. We had a long wait and got to talking. Karen told me that she wanted to retire in Hawaii and she was turning 50 in October and would call me to invite me to her big costume birthday party. In April we ran into each other a couple of times coming and going to the hospital. Her nephew would drive her to the hospital. Karen was lucky to have such a caring nephew. She also told that her whole family was there for her to help her when needed. I'm sorry I didn't get a chance to know Karen better. I have just had this feeling that Karen may not be with us anymore. See you on the other side, Jolyn

“ For the family, I pray that all of you can find some joy in your memories of Karen. However the best comfort that I can think of for you dear ones is the promise of Karen and ours Designer. Since we were made in his image he wants his artwork to stop experiencing the pain of death. Notice the promise at John 5:25,28 and Revelation 21:3,4. We are praying for all of you.
